

## **CALGB 8461: Cytogenetic Studies In Acute Leukemia**

### *Fast Facts*

1. Patients from adjuncts are eligible if the Main Member Cytogenetics laboratory has agreed to process samples from that adjunct.
2. Within one month of registration on 8461, register onto a CALGB treatment study for previously untreated AML, ALL MDS patients. Patients enrolled on CALGB 100001 must enroll in CALGB 861 (see CALGB 100001 for sample procurement details.)
3. Simultaneously with registration on 8461, register patients with the continental United States onto CALGB 9665 (LTB).
